MEMORANDUM FOR: Chief, SALT Support Staff
FROM: Director of Central Intelligence
SUBJECT: SALT Briefing for John McCone [redacted]

25X1

1. I had a phone call from John McCone. He is anxious to do what he can to help support the SALT situation. He would like to get a briefing from us (not "a snow job") that will help him take a meaningful position with the public. He fully recognizes that anything he hears from us could not be retransmitted in detail, but only in general flavor. I told him we would do what we could for him. [redacted]

2. He will be in Washington the night of the 23rd of May, probably staying at the Madison Hotel. I told him we would pick him up there at 0830 on the 24th. He will come to my office for a brief visit and then I'd like to ask you to take over. He will call us in the interim to confirm that he has a reservation at the Madison. [redacted]
